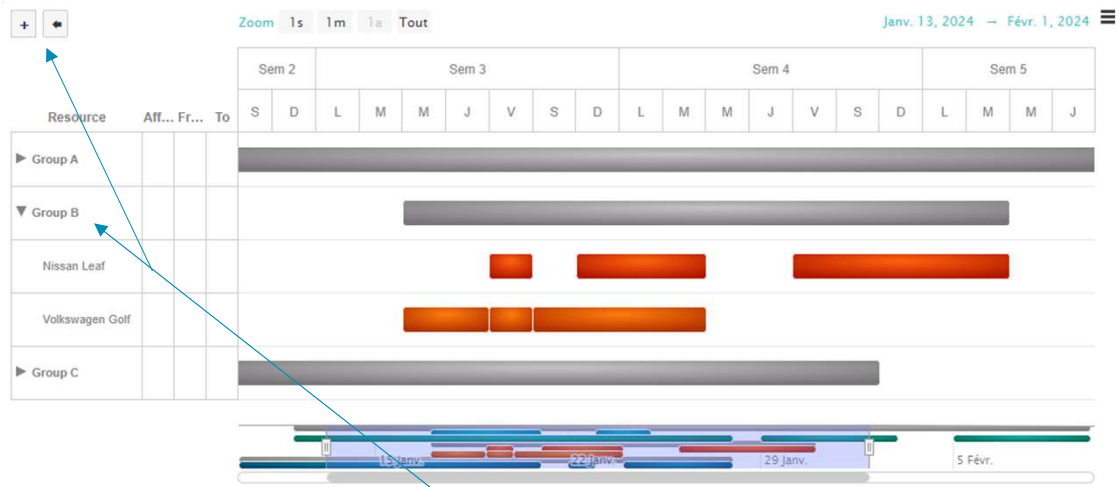
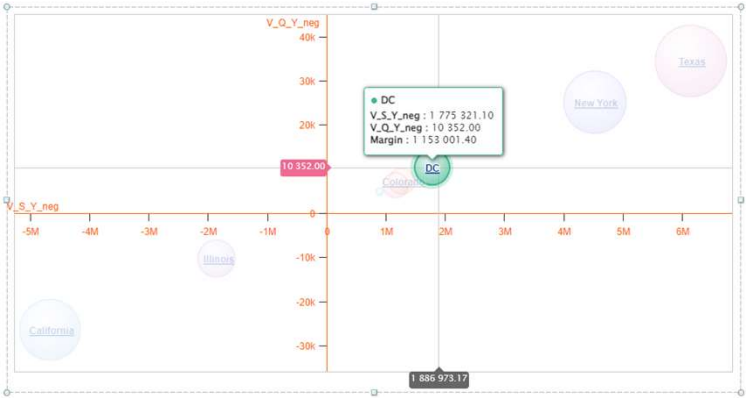
N4V UPDATE ➲ Bubble chart / Gantt

A deep enhancement has been done in many charts. Special focus on the **drillable Bubble Chart** and the **Gantt** charts...



- **3rd measure** (size) is now **optional**
- **Horizontal/Vertical dynamic** (min/max/avg...) **lines and ranges** can be displayed
- **Axes** of the Bubble Chart can now be **0 centered**.
- **Crosshair** (horizontal/vertical) can be displayed



Gantt Resources Management can now be used with **grouped dimensions** (fold/unfold rows). **Affectation columns** can be **hidden** on the fly...

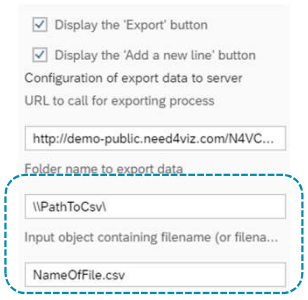
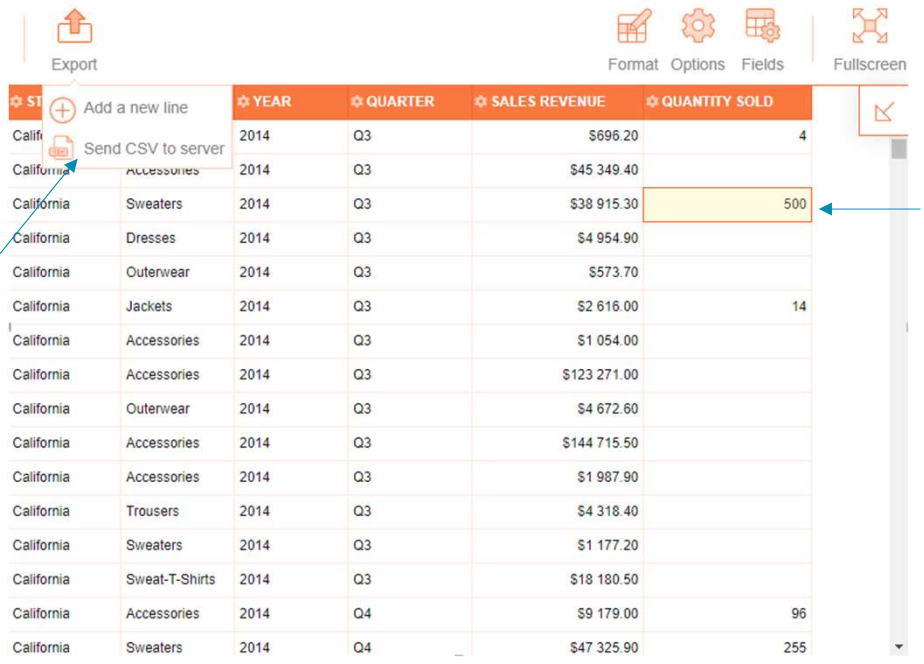
N4VUPDATE ➲ Write Back Data with the Data Analyzer

From this version, it is possible to write back data from Webi to a CSV file and then integrate it where you need !!

1 - Configure the Data Analyzer to enable the write back data





2 - Add / Remove or Update any values in the cell(s) you want.
You can also **add new lines** !

3 - Just click to export the data **to a CSV File**

4- The CSV is saved at the specified path and can be sent to any destinations (database included)

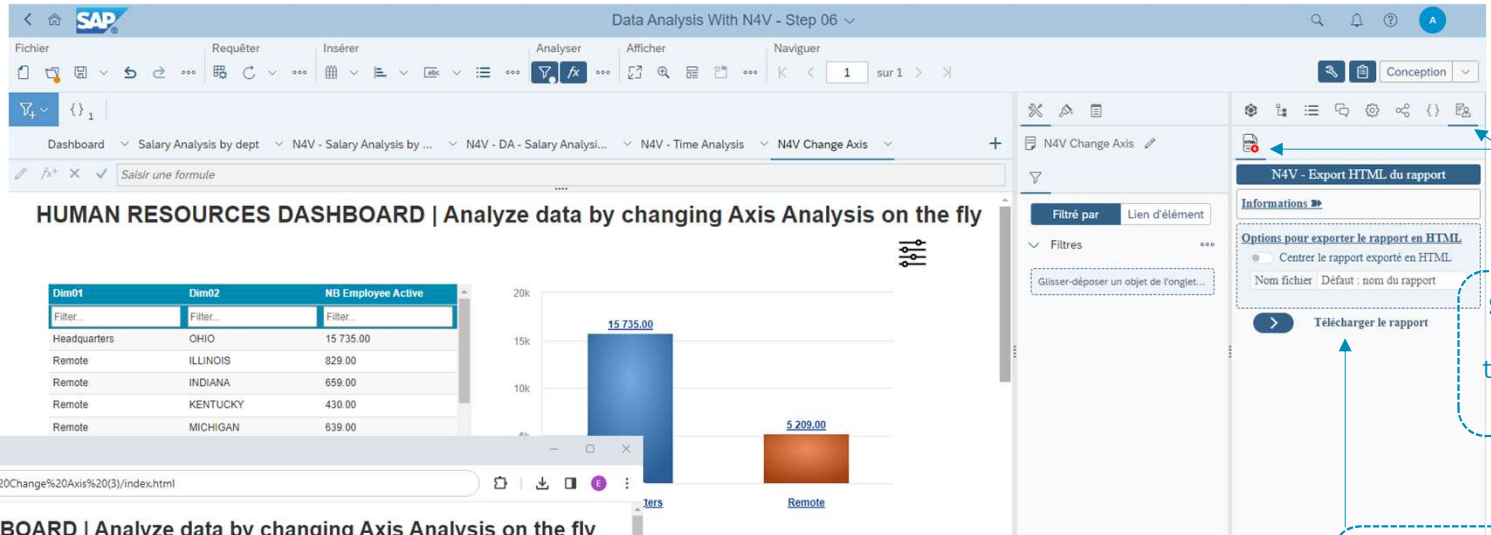
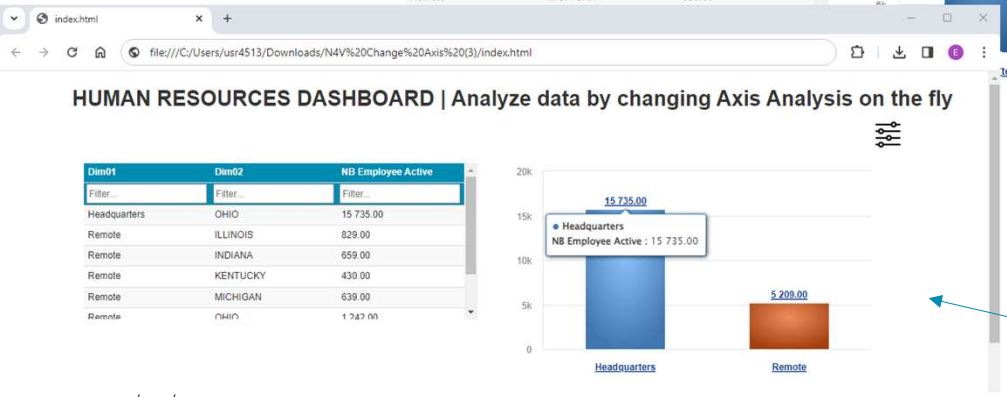
N4V BETA ➲ Webi Extension HTML Export

Beta version of N4V Webi Extension (for SAPBI 4.3SP3+) is provided to help you to export a one page dashboard as HTML format (embedded N4V elements in HTML format and their data).





Select the SAPBI groups for which the N4V extension is to be activated.

Just click to export the Webi report page (with N4V elements) **in HTML format**

- View your **HTML report** on your computer
- **N4V elements** are full dynamic HTML (**embedded data**)
