New Version 2024.3.0

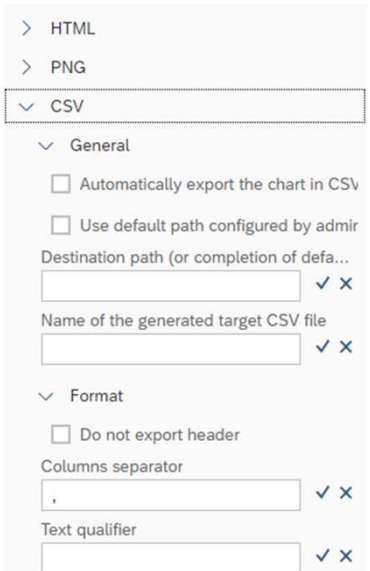
What's new?

15/10/2024

SAP® Partner

N4V^NEW ➲ Export enhancement

You already like the HTML & PNG export feature; you will love the CSV export capability offered in this new release! Enhancement in the Server Export has been released.



With the **CSV export** capability, export automatically the data of the block on your N4V server (or FTP/Sharepoint) in a flat CSV file

An **alert popup** is now displayed if an empty or unauthorized folder/filename to export is set. This will help you to quickly fix your failed Server exports.

A list of **authorized paths** can now be set in the N4V configuration file.
For safety reason, you can also decide to display/hide this list to your users.

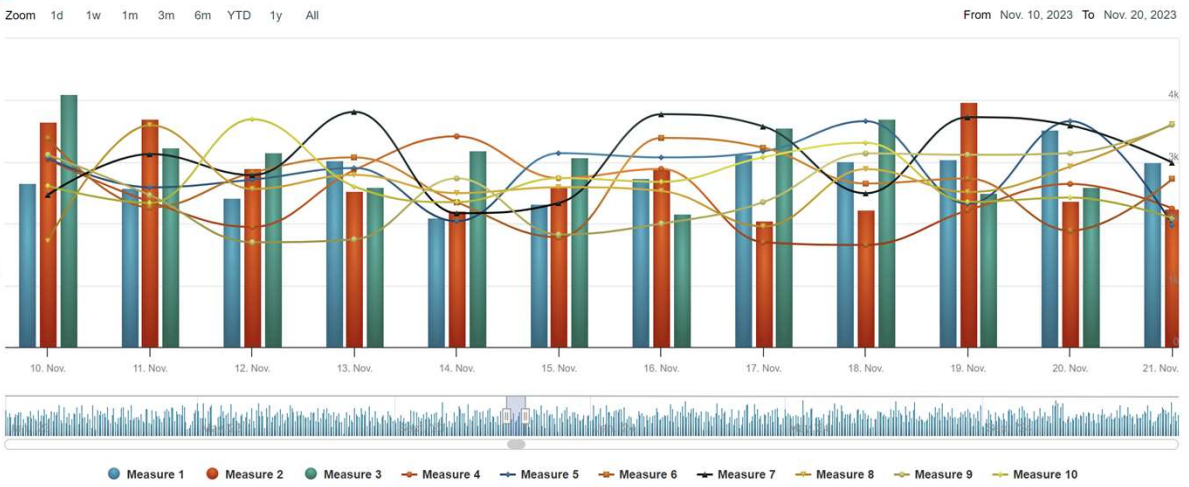
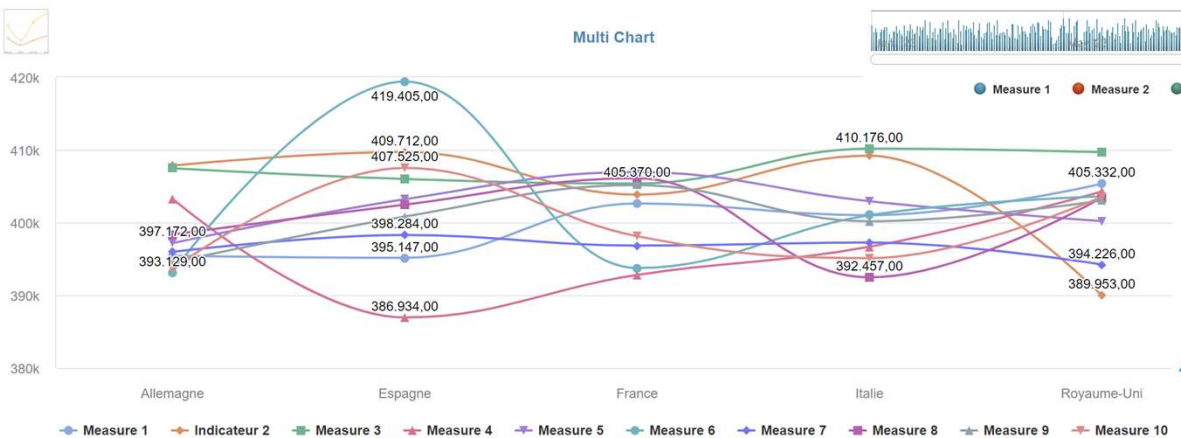
N4V UPDATE ➲ New features in components

Up to 10 measures can now be used in the Multi Chart and in the Timeline.
Analyze simply a very large amount of data with N4V"

You can now feed your **Timeline** with up to **10** measures
Combine multi kinds of charts on a unique component





The **Multi Chart** can also be feeded with up to **10** measures.
Use the dynamic legend to hide/unhide the charts and compare your data in an easiest way
