

New Version

2024.4.9

N4V Release: Need4Viz Academy

You asked us, we did it! You love the Drillbar and the Multi charts but you also needed to display multi measures and drill into multi dimensions, that's why we have added the MultiDrill Chart to N4V.

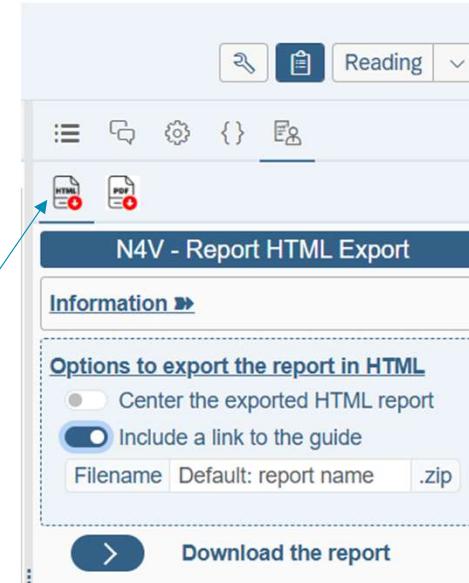

N4V NEW ☰ New features in N4V Extension for Webi

Enhancement of the N4V Extension – Report HTML Export. A new PDF printing function is now available.

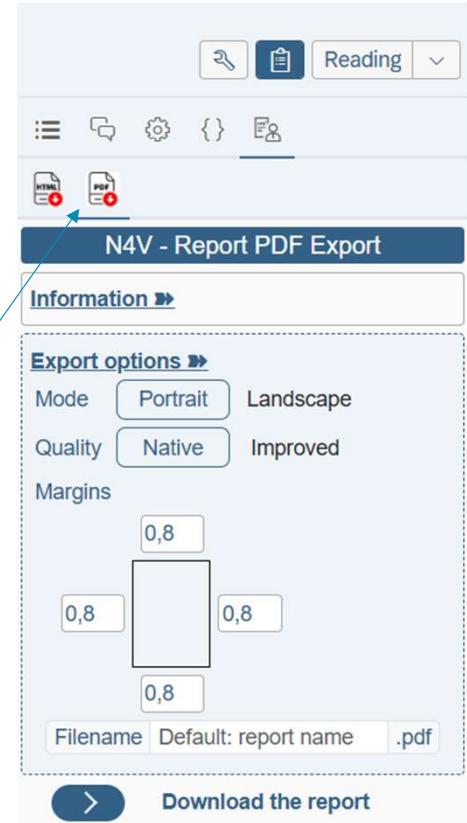

The **N4V Extension** for Report HTML Export has been enhanced.

The **javascript functions** needed to navigate between elements are now **automatically generated** during the HTML Export.

A **dynamic Wiki** can now be generated with the HTML Export. You'll find in it information on "**How to achieve the integration of your HTML Exported Report in your Intranet/Extranet**".

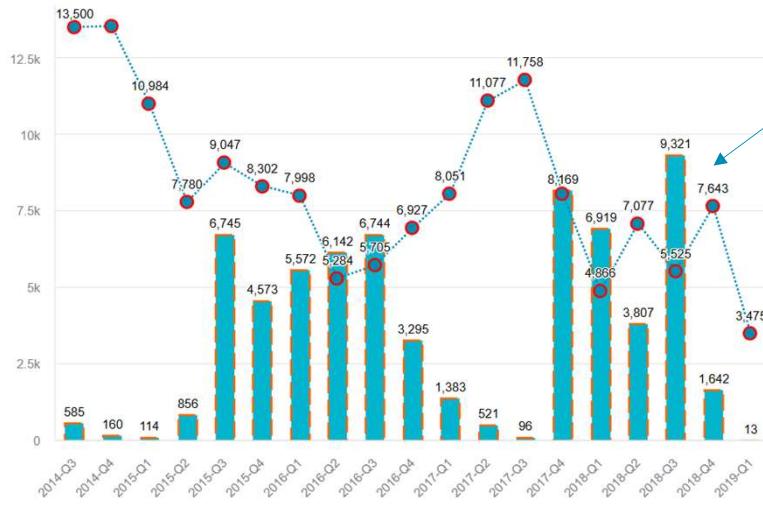

A second N4V Extension is now available. You'll can **print in PDF format** the current report page in the exact state it is (with drill level, filters... applied).

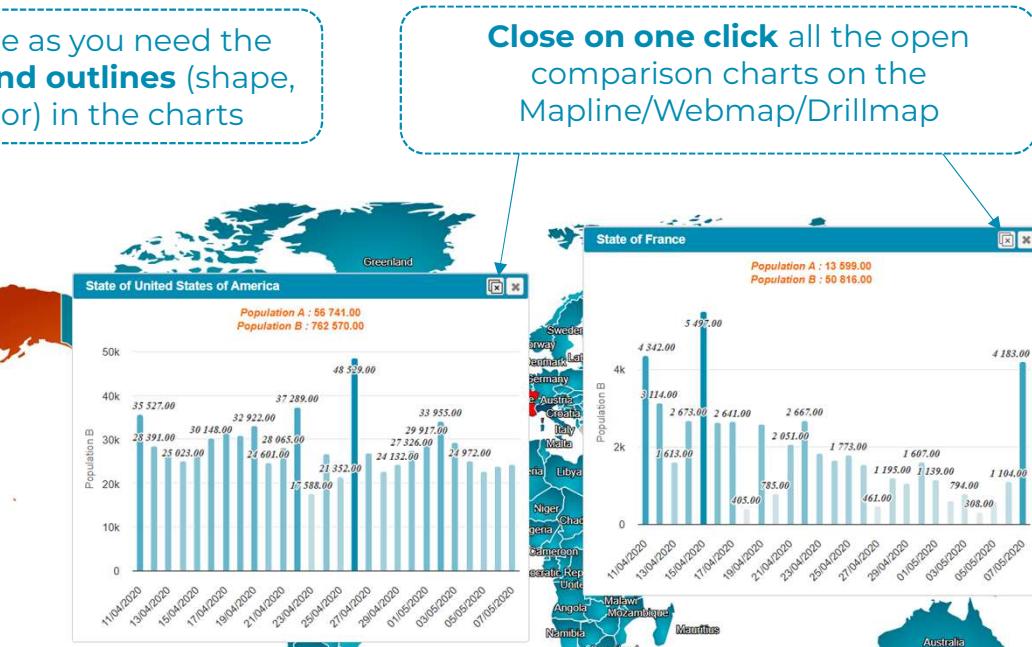

N4VUPDATE ➔ New features in components

need4viz
DATA VISUAL SOLUTIONS

SFTP export feature has been deeply improved (export thousands of HTML files has never been so quick!). New settings are available to manage the outlines & markers in chart. Zoom in charts can now be disable or set on X and/or Y axis. And so more...

Customize as you need the
markers and outlines (shape,
size, color) in the charts

Sort Radio button, List, Menu button... **items by a hidden object**

- ▽ Data Assignment
- ▽ Label, [Icon URL] (0)
 - Drag and drop an object from the objects tab
- ▽ [Items order by] (0)
 - Drag and drop an object from the objects tab

Full release note 2024.4.9

The screenshot shows a web browser displaying a release note for the N4V solution. The page is titled "Current release of N4V for Webi". It includes a summary of changes, a release date of 12/27/2024, and a list of technical evolutions. A section titled "N4V Extension for Webi Application" lists several features, and another section titled "New Widget" lists a single feature: "MultiDrill Chart". The browser interface shows a navigation bar with "Last Visited Pages" and a "Table of Contents" button.

Current release of N4V for Webi

You can see here the features and fixes of the current release. **Change** item indicates that a different behaviour can be observed in your charts between previous version of N4V and this version. You may use new settings to update your chart if desired.

2024.4.9

Release date : 12/27/2024

Technical and functional evolutions of the solution. Main update :

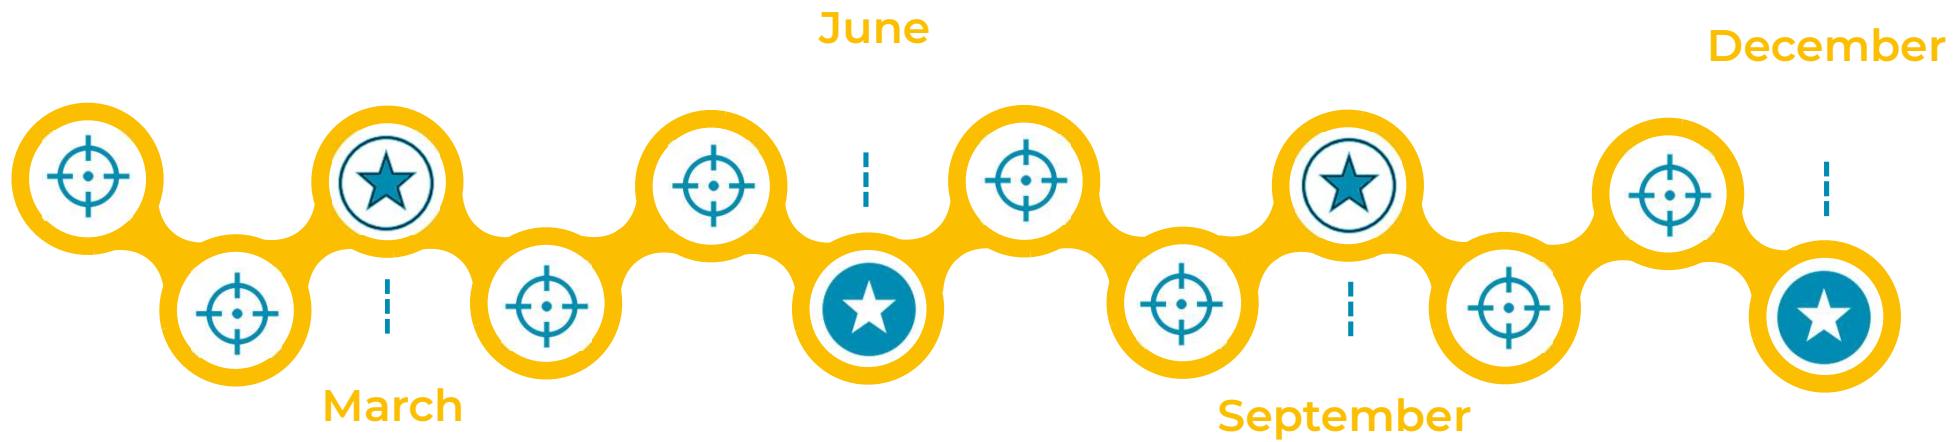

N4V Extension for Webi Application

- Export HTML Feature : Javascript functions needed by navigation between N4V components in the exported HTML report are now automatically generated during the global HTML Export.
- Export HTML Feature : The SAP Icons can now be exported in the HTML dashboard.
- Export HTML Feature : A Dynamic Wiki page is generated during the HTML Export and assist you to realize the end of automatization of HTML Export (sections to create in Webi, settings of individual components...).
- Export PDF Feature : A new feature is now available. You can export in PDF format the current rendering report page. The state of animation (drill, filter, zoom...) in each N4V component is kept and displayed correctly on the PDF.

New Widget

- MultiDrill Chart : This new widget, which combines features of Drillbar and Multi Chart, is able to display up to 5 measures with up to 5 drillable levels. Each level (or each measure) can have its own chart type (Column, Pyramids, Lollipop, Line, Curve, Area, Curved Area).

N4V → 2 major releases in 2025

Minor release (every 3 months) : **corrections, improvements** to existing components.

Major release (every 6 months) : Minor versions + addition of **new components**.

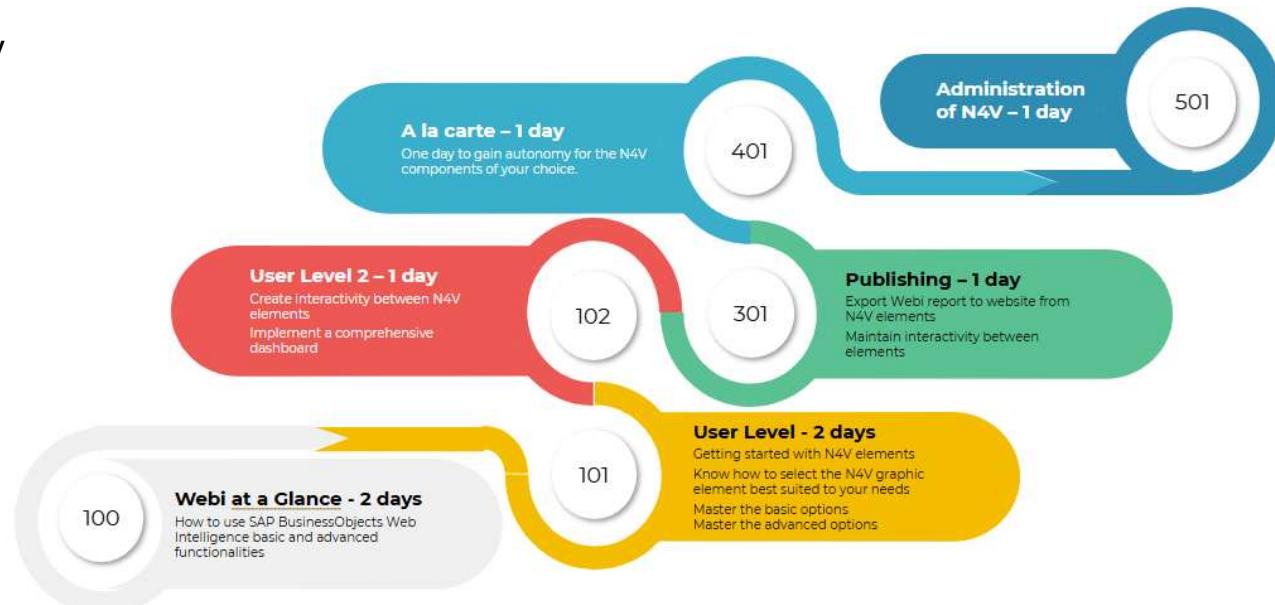

HotFix (as required) : **urgent** corrections and improvements to existing components.

Introducing Need4Viz Academy

Need4Viz Academy provides instructor-led learning for N4V FOR WEBI users of all skill levels. Our courses can be delivered virtually or on-site, in English or French. Courses are offered with sample data but can be customized with organization's data. We can also work with your organization to create a custom course based on your training requirements.

Need4Viz can also provide expert professional services in just the right amount to fit your project scope and budget.

Use our [contact form](#) to schedule a consultation and determine the right services for your team's success.
